'Exotic Summer' Collection

## **NEW Spring/Summer'19: 'Exotic Summer'**

We are incredibly excited to enter this season with the launch of our fabulous new collection 'Exotic Summer'. Embodying the essence of what spring/summer is all about, this collection is charismatic, fresh, playful, colourful, and dynamic.

Introducing exotic, semi-precious coloured stones to the Louise Sinclair Jewellery portfolio, 'Exotic Summer' debuts a fun and vibrant alternative to diamonds through the addition of beautiful gems. Offering a more affordable price point, Louise wants her jewellery to be accessible to a broader group of women.

"I want women to really enjoy wearing my jewellery. I want them to feel exquisite and sophisticated and not think that they have to spend a fortune to afford fine quality." – Louise Sinclair.

Staying true to the brand, pieces are thoughtfully designed and crafted to be comfortable to wear from day to night. The timeless silhouettes exude elegant sophistication for women across generations, no matter what the occasion.

## **Fresh and chic blue topaz**

Adding a cool, fresh take on 'Exotic Summer', the round blue topaz necklace and earrings, claw set in 18ct white gold can be worn beautifully as a statement piece by themselves. Pair them with the 18ct white gold claw set cushion blue topaz and peridot ring for a seamless and complete look.

**A piece of jewellery should be an extension of your body. It should move with you, not weigh you down. It should simply magnify your beauty.**

To me the practicality of a piece of jewellery is vital. It needs to be comfortable and easy to wear. Only when it is worn does it become valuable. I find it such a shame when a treasured piece is locked away in a safe somewhere because it is either too awkward or outdated to wear.

This is why my intention is always to design pieces that strike a fine balance between creative flair and practicality. They need to be flexible enough to be worn to any occasion, with any outfit. Coco Chanel said: 'Simplicity is the keynote of elegance', and my approach to jewellery design could not be more aligned to that line of thinking.
